FIFTEEN CENTS

## Board and Meyer were 'incompatible'

### Settlement 'better than court fight'

By JERRY PFARR

Some residents of the Antioch area are upset by last week's news that the Grade School Board is paying an extra \$27,500 to have Superintendent Henry Meyer break off his contract next June.

The question being asked in phone calls to newspapers and other offices is:

"What is the school board doing with the taxpayers' money?"

It also bothers some persons that no reason has been given as to why Mr. Meyer is being removed.

IT'S TRUE THAT VERY few of the people involved are willing to be quoted on the issue.

This has frustrated newspaper reporters and others as well.

In a situation like this, a newspaper has little

### NEWS ANALYSIS

alternative but to count on its "usually reliable sources" and honor their requests to be anonymous.

In this "analysis of the news," and that's all it can be at this point, the Antioch News had deduced the following:

- The school board had no "grounds" on which to fire Mr. Meyer. The issue was basically "incompatibility."

- The board and Mr. Meyer therefore met behind closed doors for hours at school board meetings. This frustrated audiences and reporters, but they apparently were trying to reach an agreement on terminating the superintendent's employment.

- Mr. Meyer was given a week or more of "personal leave" to determine a settlement that he could "live with."

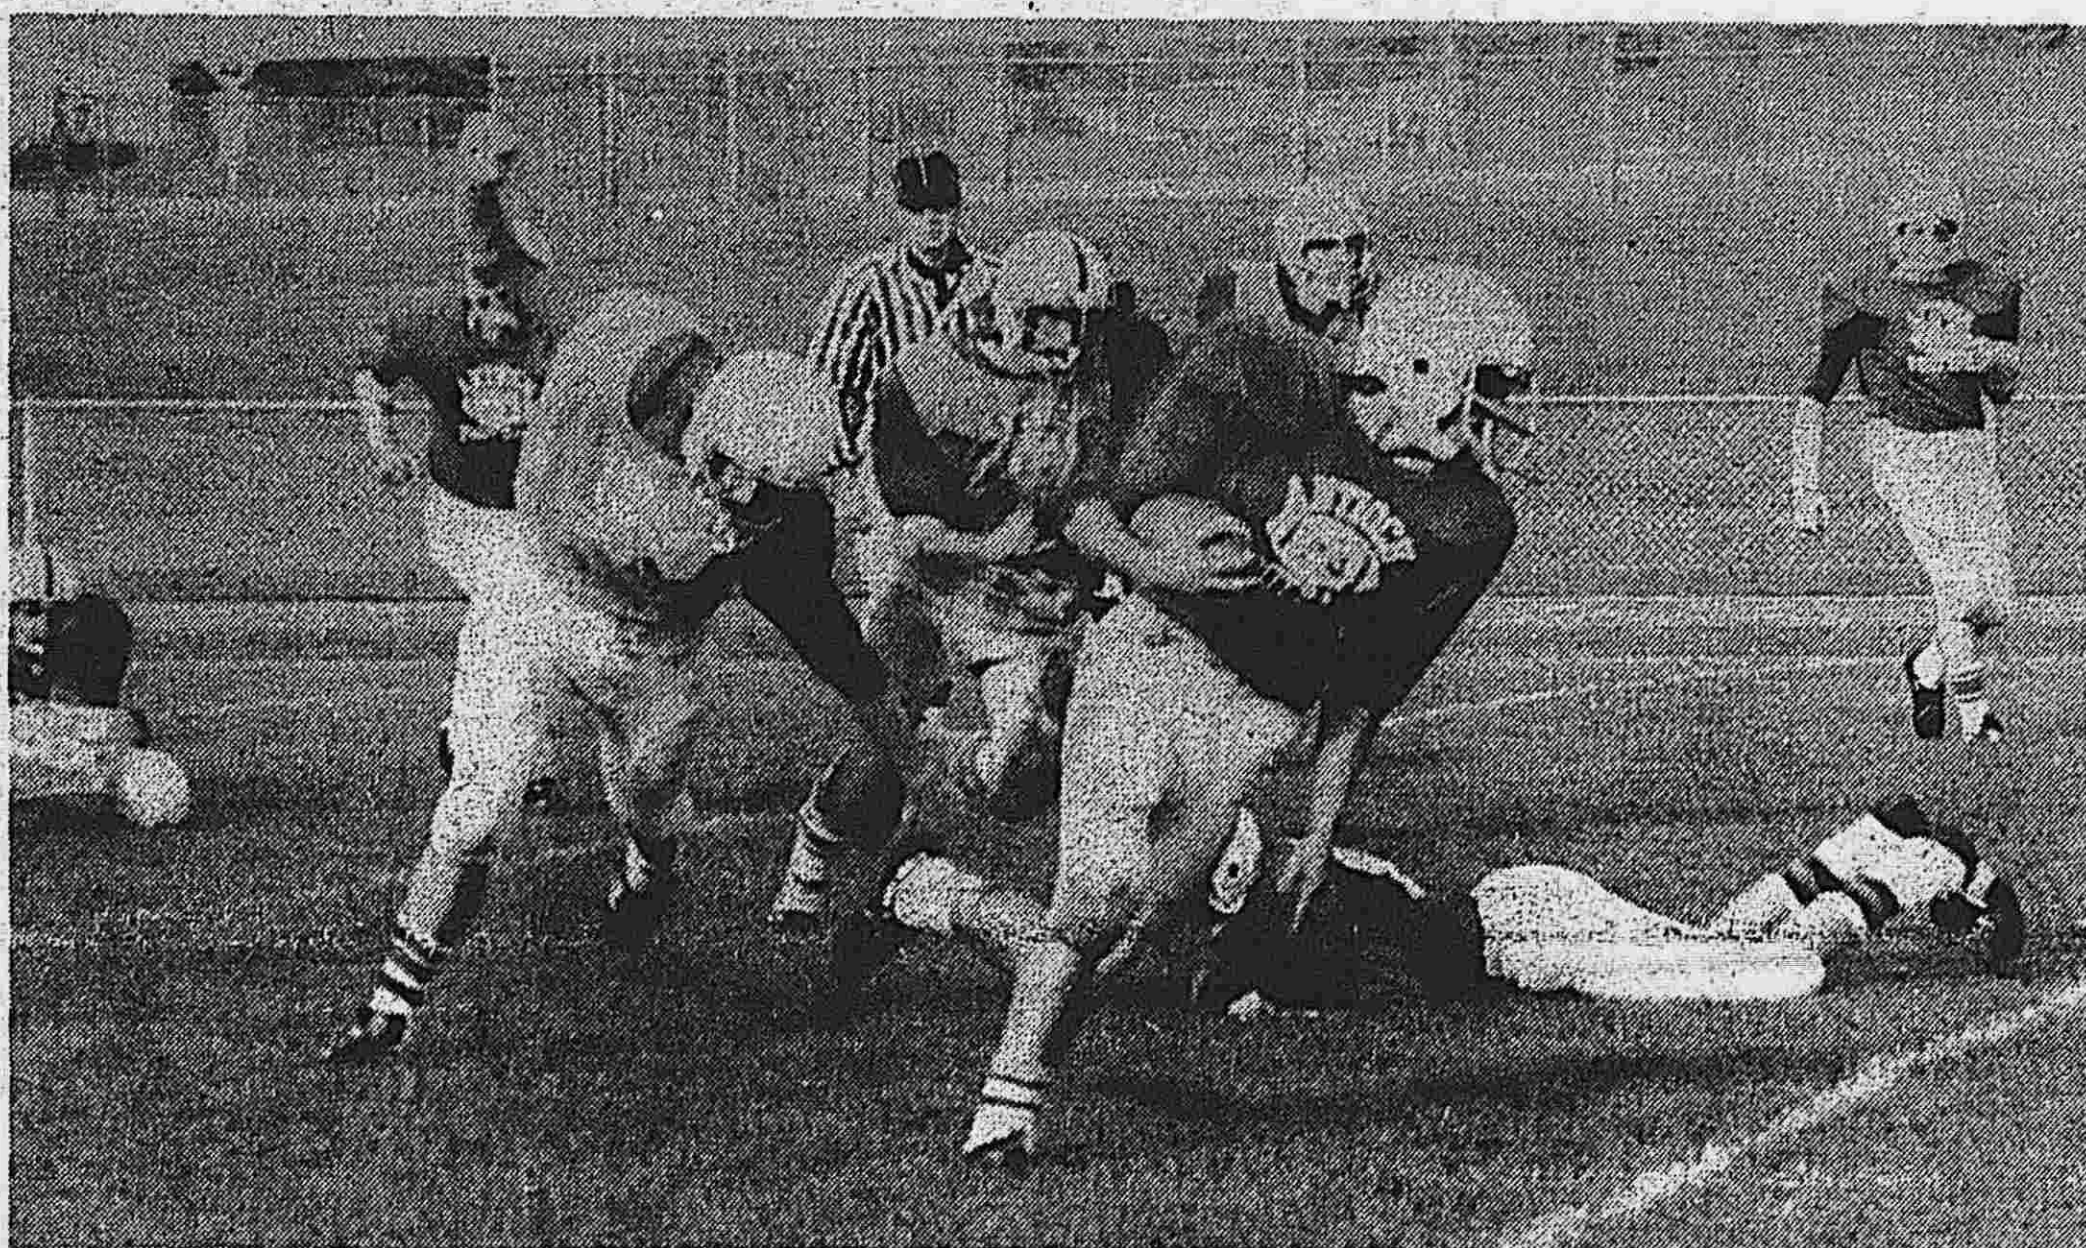

- At the Aug. 30 meeting of the board, after another closed door session, it was announced that Mr. Meyer would receive \$60,000 for one year's work in order to break off a three-year contract.

IF THE SETTLEMENT hadn't been reached, six of the seven board members, possibly, would have been interested in having Mr. Meyer fired. In that case, perhaps, he could have taken the board to court, which might have cost a lot more than \$60,000.

Apparently, the six board members who voted against him felt that \$60,000 for one year's work was "a cheap price" to pay "to keep a grade school district together."

"The way it was going, the continuous haggling would have been harmful to the students," one source indicated.

## Police stop hubcap theft

Antioch was the scene of a police chase shortly after 2 o'clock in the morning Tuesday.

Officer Charles Watkins and state trooper Chuck Larson reported they saw a 26-year-old Kenosha man stealing four hubcaps from the Lyons-Ryan car lot.

Watkins yelled for the man to "freeze," but the suspect kept running. The Antioch officer then fired a shot in the air and advised the man to stop several times.

Finally, the suspect fell in a marshy area in a nearby field and Watkins caught him. Although the man resisted, Watkins and Larson succeeded in handcuffing him and getting him to the Antioch police department. He later was transferred to the Lake County jail where he is charged with "theft over \$150, resisting arrest and driving a vehicle while his license was revoked."

WATKINS AND LARSON said they first spotted the man when he parked his car across the street from Lyons-Ryan. Then, carrying a tire iron, he ran past the two squad cars, apparently not noticing them.

The man pried off four hub caps, valued later at \$40

each, and started running back to his car.

That's when Watkins yelled:

"Freeze! You're under arrest."

The suspect dripped the hubcaps, Watkins said, and began running west, ignoring the officer's advice to stop. He also threw the tire iron behind him, almost striking the officer, the report said.

"After I fired a shot into the air, he continued to run," Watkins said. "He fell down in water and mud, but got up and continued to flee. Finally, the subject fell again and was apprehended."

IN ANOTHER INCIDENT, Antioch officers Robert Lange and Harold Mason clocked a car traveling 77 miles an hour in a 45 mile zone, entering the village from the south on Rte. 59.

This happened at 2:15 a.m. Saturday.

Mason said the driver tried to stop for a red light at the intersection of 59 and Rte. 173 but his car slid through.

Arrested for speeding and driving while intoxicated was a 19-year-old Antioch youth.

## Trap Shooters Vie Sunday in Lions Club Event

There is going to be another "Lion Safari" in Antioch on Sunday, the fourth annual shoot sponsored by the Antioch Lions Club.

Shotguns will be the firearms used, and the quarry will be clay pigeons. Talented and lucky gunners will win ready-to-pop-into-the-cooker turkeys, ducks, and also young chickens and beef patties.

SHOOTING WILL begin at 9:30 a.m. and continue until everything has been won or darkness descends upon the scene at the trap range of the Conservation Club (NICC), three miles west of Antioch on Route 173.

THERE WILL be one, two, three and five White Bird shoots, High-low events, and High-Gun-take all contests, so every class of shooter, good, mediocre, or the plain every day "can't hit the ground with his hat" variety, will have an equal chance of winning a share of the prizes.

OTHER PRIZES include a new deer rifle and a new shotgun. More information appears in the advertisements on page 11.

Five-man squads will fire from five different positions. In the high-low event, the gunner with the most hits will

**WHAT'S MISSING?** You guessed it, Sorenson's Bait Shop, an Antioch landmark. The old building was torn down last week at the intersection of Routes 59 and 173. The

property is owned by the Osmond Sisters, Inc., who said they have no definite immediate plans for the use of the land.

## 'Let's finish out the year' - Meyer

Continued from page 1

**MR. MEYER SAID** last week:

"As far as I'm concerned, for the sake of the community and the education system (now that the action has been taken) I would just as soon people would back off and let us finish out the year trying to run the best educational system we know how to run."

The resolution passed by the board was accepted 6 to 1, with Milo Bailey the only member voting "nay."

From a legal point of view, the board acted within the law and did what it was authorized to do. Six of the seven members wanted the agreement. The board, legally, doesn't have to "give a reason" and closed executive sessions regarding personnel are legitimate.

**MR. MEYER SAID** his future is indefinite. At 56, he is now in his eighth year as superintendent of Grade School District 34.

He said he might seek some other line of work related to education, but not in the "public sector." On the other hand he could get full retirement with two more years in public education in the state of Illinois.

Last June, Mr. Meyer made allegations to the county school superintendent's office which indicated he felt the board wasn't giving him the authority that went along with his responsibility.

**MANY OF THE TEACHERS** in the Grade School District have expressed the feeling that considerable educational progress was made during Mr. Meyer's years as superintendent.

On the other hand, some parents and school board members have felt that education in Antioch's grade schools should "get back to the basics" to some extent.

Under his former contract, approved March 24, Mr. Meyer would have received \$32,500 this year and the same amount, along with added cost of living increases, in each of the next two years.

Under the new contract, Meyer will be employed by the school board only from July 1, 1977, to June 30, 1978.

Although some specific issues have not been revealed, Mr. Meyer's future has appeared uncertain for two years.

In December 1975, the school board granted him a new three-year contract by a vote of 3-3, with one member abstaining. Board attorney, Ted Larson ruled an abstention counts as an affirmative vote, and the contract was approved.

Then, just prior to the April 1977 school board elections, the old board granted Mr. Meyer a new three-year pact, even though a year remained on the contract approved in 1975. The March 24 contract was approved by a vote of 4-3.

In the elections, new members were picked by voters and the board became "6 to 1" against Mr. Meyer.

## the SOVEREIGN STATE of AFFAIRS

BOYD

THE TOWN  
CRIER

A lot of hot competition is scheduled at the Northern Illinois Conservation Club's trapshoot range this weekend.

On Saturday, at 3 p.m., "Deadeye Dave" Bushing's Foremost Liquor team takes on those sharpshooters from Triple A Reloading headed by "Affable Art" Moldenhauer.

Before we repeat some of the nasty comments those two have been firing at each other, we must remind you about the annual Lions Club "Safari" trapshoot, which starts at 9:30 a.m. Sunday and lasts throughout the day. The event is a trapshooter's dream, so be sure and read all about it on page 1.

GETTING BACK TO Bushing and Moldenhauer, their Saturday grudge match, ironically, comes exactly 50 years after the big Tunney-Dempsey "long count" fight in Chicago.

The rivalry in this trapshoot match just might make people forget all about Dempsey and Tunney.

Listen to Bushing: "Art, just be sure you have your team of Blowhards with you. I understand they consist of an outdated

glassblower called Patsy Watson. With his mouth I guess he's got the right job. Ronnie Lowery, a V.W. mechanic with a \$1,400 shot gun he calls Priscilla (how disgusting). And Len Huhn, a sore-thumbed carpenter whose nickname is "Band-aids."

Also, Lou Olandese, better known as Las Vegas Lil, who can be found sleeping at the controls of an engine on the Milwaukee Road; and yourself, Art Moldenhauer, who can be found sitting on your oversized backside from 3 p.m. to 9 p.m. at Triple A Reloading.

NOW, LISTEN to Moldenhauer's reply:

"Well, Mr. Bushing, two of your so-called fine shooters stopped by my store and were bragging how your team could beat us sitting down. Seeing as your team has such confidence in themselves, I think it would be a very good idea if your big-mouthed shooters would sit down on folding chairs at the 16 yard line and shoot their 100 targets; but of course I would imagine that you will

## Reagan Raps Proposed Stamp Act

When Congress enacted legislation creating a semi-independent United States Postal Service, it specified that the Service would have to be self sufficient by 1984. In the years since USPS was created, one scheme after another has been advanced to reduce the soaring deficits. Little has changed, and the deficit forecast for 1979 is a staggering \$2.4 billion.

As consumers, we've seen our postal rates more than double in the last eight years. The latest proposal emanating from Washington is as unpalatable as the rate hikes have been, but this one has the endorsement of President Carter. The new scheme, known as the Citizen Rate Plan, would boost the postage rate to 16 cents for business, while allowing individuals to continue to pay 13 cents. The proposal has been endorsed by the Board of Governors of the Postal Service, and it now goes to the Postal Rate Commission for hearings. The rates are scheduled to take effect next May.

The proposal assumes that our society is neatly divided into two parts — business and the people — and that by placing the burden on business, the "citizens" won't bear the costs. This is utter nonsense. The consumer will certainly pay in the end through higher prices charged by businessmen who will be spending more on postage.

The conceptual problems are bad enough, but when you get into the mechanics of the new proposal, the problems get worse. In order to qualify for the "citizen's" rate, at least one address — the return address or the mailing address — would have to be written by hand. The "citizen" rate mail would have to include the zip code of both the sender and the recipient. Further, the envelope would have to be a standard

RONALD REAGAN

size so that postal processing machines could handle it. One of the problems that has continually plagued the Postal Service has been rising labor costs. Imagine the mail room delays which will be created by hand addressed envelopes, not to mention the extra personnel who will no doubt be needed to explain the new rules and to determine who can buy the different price stamps.

And if, as Postmaster General Bailer announced, 16 cents mail will receive preferential handling, you, the consumer, will be getting slower service at the price you are paying right now!

The kind of thinking so prevalent in Washington these days, which holds that actions impacting on business have little relation to the consumer interest, is wrongheaded and shortsighted. Should this proposal become a reality, the consumer will pay more in the end through increased Postal Service deficits which Uncle Sam is going to have to pay. And, don't be surprised if yet another scheme, such as ending Saturday deliveries, is announced as a way to reduce the mounting deficit.

Soccer  
title to  
Antioch

The Antioch team has captured first place in the Lake County Junior and Juvenile Soccer Football League.

It was Antioch's first year in an organized league and the first year that most team members played soccer.

In the last game of the season Antioch and Libertyville were playing to decide who would be champion. Antioch needed to win or tie.

"The team reached its goal on pure desire and hustle. Libertyville even acquired some new and talented players from Europe for the game, but Antioch was leading 3-1 at halftime."

Coach Cornelius Lulofs said, "But we seemed to relax at the start of the second half and soon trailed 4-3. Then our team seemed to remember how hard they had worked for this chance and hung on against the more experienced Libertyville squad to gain a 4-4 tie and first place in the league."

Greg Krol led Antioch with two goals while Paul Heffernan and Dave Brooke added one each.

The Antioch defense was coached and trained by Alex Reljic and Cornelius Lulofs and team members were Michael and John Jackson, Greg Krol, Neal Lulofs, Lutz Wudtke, Randy and Scott Leland, Mark Lewis, Dave Brooke, Jim Diteero, Tony Frook, Bob Ogden, Boro Reljic and Michael Beaumont.

## The Time Machine

50 YEARS AGO: SEPT. 8, 1927

World's champion heavyweight boxer Gene Tunney, training in Fox Lake for his bout with Jack Dempsey in Chicago Sept. 22, is resting to allow a cut over his eye to heal. He was nicked Tuesday in a sparring match. The champion is enjoying about as much privacy as a goldfish. The guard is being increased around the camp so Tunney can have a day of rest unmolested by the curious and newspaper photographers.

The Fox River dam controversy between McHenry and Lake county residents is one of the leading and liveliest issues in this locality. No one dreamed that Representative Weiss' bill appropriating \$175,000 for building a dam in Lake county "near the Nippersink" would become an issue of statewide importance. Now, the McHenry group is ignoring the rights of the lake region residents by demanding that the new dam be placed below McHenry. A circular sent out last week said: "Residents of the Fox River Chain of Lakes ... do you want our beautiful Chain of Lakes turned into a foul smelling, slimy, weedy, cesspool? Without a proper water level this is exactly what will happen. We must have good water. Without it, our millions in property values will be lost."

The circular continued: "We want water enough, and pure to swim in. We want this Chain of Lakes of Ours, this Garden Spot of America, to be a beautiful place to go."

Antioch schools, both the grade school and Antioch township high school, opened Tuesday with the greatest enrollment in history at both school. In the high school are enrolled 163 students: 28 seniors, 31 juniors, 46 sophomores and 58 freshmen. The grade school's largest enrollment is also reported, there being 198 pupils registered in the grades.

20 YEARS AGO: SEPT. 5, 1957

Many positions on Antioch High School's football team are strongly contested this year. Trying out for quarterback are Richard Behrens, Russ Cote and George Lystlund, a letterman from last year. For halfback, Bill Hart and Dick Gudgeon, lettermen, have the edge, and for fullback, Don Pyle and Pat Roach are strong candidates.

The volunteer police organization in Antioch has been disbanded, and six of the members were handpicked by Police Chief Walter I. Scott to serve as regular members of the force when needed at a pay of \$1.50 an hour. The report of Chief Scott through Trustee Herman Holbek to the village board showed 383 meter violations and 178 paid; 30 moving traffic violations and 26 fined; 6 accidents, one theft and one stolen car (that recovered) all during August.

Robert J. Wilton Sr. plans to leave by plane from Midway Airport, Chicago, Friday for a visit with his son Robert at Colorado Springs, Colo. Robert is stationed at Camp Carson.

10 YEARS AGO: SEPT. 7, 1967

The Rev. LaVerne C. Anderson will be the special guest of St. Stephen's Lutheran Church at cornerstone-laying services at the new church building Sunday. The building committee under the direction of Pastor Wilton Anderson of St. Stephen and Everett Oftedahl has tentatively scheduled the date of dedication of the new church for the third week in November.

## CLC NEWS

New students at the College of Lake County are being invited to a free program on "How to Relax and be a Student." Others interested in relaxation techniques are also invited to attend.

The program, starting at 8 p.m. on Sunday, Sept. 18, in the College Center, will feature Jerry Teplitz, author of the book "How to Relax and Enjoy."

Teplitz will demonstrate basic techniques of Shiatsu (Japanese pressure-point massage), deep breathing, meditation and yoga.

"This isn't mysticism or magic," explains Teplitz, a former attorney with the Illinois Environmental Protection Agency. "These techniques are healthy things to do for your body, and there are sensible reasons why they work."

# Along the way with ANNIE MAE

Once again, horoscope enthusiasts, this is Virgo time. If a person was born between Aug. 24 and Sept. 23, the astrology people tell us:

"They are socially as well as intellectually orientated. They have a distinctive knack for presenting hard facts in a pleasant manner. Their poise and social instincts never fail. They are geniuses at mixing business with pleasure. Their common sense and charm command both admiration and respect."

Famous Virgoans include Lauren Bacall, Anne Bancroft, Ray Charles, Sean Connery, Peter Falk, Greta Garbo, Elliott Gould, Sophia Loren and Raquel Welch. Need we say more?

Yes, we must mention some of our Virgo friends and wish them a happy birthday. And tell them we're a little bit jealous because we were born under different signs and don't have all those fantastic Virgo qualities.

FOR EXAMPLE, Michelle Blanchette is having a Virgo birthday Sept. 8, and Ann Pfarr will be 16 on Sunday. Sandra Herbst celebrates her birthday Sept. 14, and Bill Barr has a birthday coming up on Sept. 17. See, all wonderful people.

A SPECIAL HAPPY ANNIVERSARY to our friends Dave and Tina Zickus. We think they've been married

three years now. Right, Dave? The anniversary is today, Sept. 7.

RECEIVED A CARD from Mr. and Mrs. Charles J. Cermak who are now living in Water Glades, on N. Ocean Drive in Singer Island, Fla.

The beautiful picture on the card, with water surrounding tall condominiums, makes us wish we were there, too.

"Thought we would make a change," writes Charlie. "We decided to see how it is living on an island ... also on the ocean. Keep the Antioch News coming."

We sure will, Charlie.

The last we heard, Jim Hamlin still doesn't know who decorated his office building on his birthday with a big sign that said:

"Lordy, Lordy ... Jim is Forty."

## Harry Robin to run for sheriff's job

Harry G. Robin, 41, supervisor of Grant Township and a member of the Lake County Board, has announced that he will seek the Republican nomination for sheriff of Lake County in the March, 1978, primary election.

Robin said he is running for sheriff because, as a 10 year veteran police officer and member of the Lake County Board for nine years, he has observed "that there are many outstanding deputies presently employed by the sheriff's department; however, without strong leadership and the total desire to attain professionalism, the department has been fragmented with numerous factions existing, thus hampering the efficiency of operation and response to the citizens of Lake County."

To correct this, Robin said he intends to surround his administration "with those qualified professional members of the department, as well as proven, well experienced professional law enforcement officers from Lake County."

Incumbent Sheriff E.J. "Chic" LaMagdeleine has announced that he will seek re-election.

He had been asked to do so in a letter signed by State Senator Larry Leonard, State Representatives Daniel M. Pierce and John S. Matijevich, County Clerk Grace Mary Stern, State's Attorney Dennis P. Ryan and Mayors Bill Morris and Leo Kukla, LaMagdeleine, a Democrat, said.

"After enough time has passed, all memories are beautiful."

## John Chapman's new heating system pulls energy out of thin air.

John Chapman of Woodridge is one of the homeowners in northern Illinois who recently installed a heat pump. How'd he like it? "It's just been great—one unit that both heats and cools. It really does the job," says John.

### How the heat pump works.

Most heating systems heat by burning fossil fuels, like natural gas or oil. The heat pump is different. It doesn't burn anything. It uses electricity to move heat from one place to the other—heat that already exists. Where? In the air around us. Even on cold, cloudy days, there's an abundance of heat in the air—solar heat energy that the heat pump captures and moves indoors.

In warm weather, the process automatically reverses for cooling. The heat pump captures excess indoor heat and humidity and removes them to the outside.

### The Remarkable Electric Heat Pump.

#### Better efficiency.

Today the heat pump is the best alternative to heating systems which consume scarce fossil fuels. It taps an energy supply that's virtually limitless—heat energy from the sun contained in the air around us. And it is the most practical system to capture solar energy efficiently.

In northern Illinois the heat pump, based on average performance for a heating season, can deliver more than 1-1/2 units of heat energy for every unit it consumes. This means the heat pump not only saves energy, it can also generate long-term operating cost savings.

If you want additional heat pump information, call your local Commonwealth Edison office and talk to one of our marketing engineers.

To get the full advantages of the heat pump, it's important to get a quality product, properly installed and serviced. For the name of qualified installers in your area, call G.W. Berkheimer Co. (Westinghouse Distributors), 312-374-4411; General Electric Co., 312-496-6200; Lennox Industries, Inc., 312-593-2820; Temperature Equipment Corp. (Carrier Distributors), 312-681-6220; or Central Furnace Supply (Bard Distributors), 312-355-1220.

## Searching for roots

Looking for your roots? You're not alone. Librarians and historical societies all over the country have reported astonishing numbers of people, of all ethnic backgrounds, seeking information about their family histories.

If you'd like to pursue this exciting quest yourself, don't begin your research at the library. Start by consulting your most important resource — your older relatives.

Ask them for names, dates, marriages, towns — as many details as they can recall. They can give you priceless clues for your library research.

And in the process, your most important "resource" may turn into your oldest friend!

Guess we'll skip this one.

I ALMOST MADE IT last week.

A marine corps recruiter called me from Waukegan. Somehow, he had my name on his desk and figured I was a candidate for the corps.

"Take me, please," I said when he told me who he was.

"How old are you?" he asked.

"Thirty-eight," I replied, fudging just a wee bit.

"You're too old," he said.

"Thanks. That's what my wife keeps telling me."

win a prize, as will the hapless Hal with the least hits. In the White Bird contests, the high gun wins a prize, as do all the lucky Louies who bag a white bird. Missed white targets are thrown again until they are hit. Regular trap targets are black with a yellow or orange dome.

IN ADDITION to the prizes mentioned above, there will be valuable merchandise prizes, and they too will be shot for.

Hot food and drinks will be served on the grounds all day long.

Watchers and kibitzers are welcome to come out and look or heckle the shooters, as their fancy dictates.

William E. Brook and Dave Bushing are in charge of the event.

Contestants can enter at the range on Sunday.

Three traps are available and there should be no waiting to shoot.

A special 10-day dove hunt is being held until Sept. 15 at Chain o' Lakes State Park.

This is the first year dove hunting is to be allowed at the Chain, and it is being done on a limited, experimental basis, said Kurt Zacharias, a ranger at the park.

About 16 acres at the west end of the park have been planted to sunflowers to attract and hold the doves, and only 25 hunters a day will be allowed on the area.

"We're more or less feeling it out this year to see if it works," Zacharias said.

Hunters will be allowed on the area on the first come, first served basis. Registration for each day's hunt will take place near the hunting area at an outdoor check station just off Wilmot Rd. between routes 12 and 173. Signs will aid hunters in finding the area.

The special hunt will not interfere with camping or any other activities at the park, Zacharias said.

The Lions Club of Antioch expresses its appreciation to the following organizations for the participation and civic concern making Sunday, Sept. 11, a successful "Fund Raising Trap Shoot" for the Antioch Lions Club:

Teresi Chevrolet, Lyons & Ryan Ford, Pedersen Implement Co., the First National Bank of Antioch, Kodiak Gun Sales, Foremost Liquors, Triple A Reloading, Antioch Savings & Loan, Rittenhouse & Embree Co. and the State Bank of Antioch.

These organizations have been leaders in the growth and stability of our community. With their continued support our community is assured of being one of the finest in the United States.

Thank you again,

# Scoring records may fall in Antioch Open

By JERRY PFARR

At least two scoring records are expected to be set in the second Antioch Open golf tournament on the next two Sundays, Sept. 11 and 18.

Although the site of the tourney, Spring Valley Country Club, is considered slightly tougher than Antioch Country Club, where the first tournament was played last year, the size and quality of this year's field should produce lower scores.

For example, John Roach won last year's championship flight with a 36-hole total of 149. His rounds at Antioch Country Club were 72 and 77.

AS OF MONDAY the championship field for this year already included two newcomers to the Antioch Open who are capable of scoring below 149 at Spring Valley. They are Nick Marucci, talented young pro from Antioch, and Rod Winn, owner of the Stage Stop restaurant in Wilmot and one of the best amateur players in Kenosha county.

Also in the championship field are such Antioch players as Cliff Houghton, Jim Fields, Jack Fields and Rich Higgins. All four shoot in the 70s at Spring Valley.

The Class A record of 163, set last year by Charlie Anderson and Vern Thelen, also could fall. Thelen is back this year, along with Dean Schultz, who shot 74 and 91 for a 165 total and third place in the first Antioch Open.

Charlie Anderson is averaging 80 for 18 holes this year and has decided to play in the championship flight. But his brother, Andy, who had 162 in the championship class last year, will be playing in Class A this time.

With more than 20 golfers in Class A, a winning score of less than 163 is likely. Class A is for players who average in the 80s.

THE CLASS B RECORD of 172, set last year by Bill Effinger and Bill Nauman, may be hard to beat despite a group of 30 players ready to start firing in that flight on Sunday.

Nauman has moved up to Class A this year. As of Monday morning, Effinger hadn't entered.

SPRING VALLEY, just north of Antioch in Salem township, is in excellent condition for the tournament. The grass is green and lush, so all the course's 6,434 yards will come into play.

Par is 35-35-70. Most golfers consider the longer front nine (3,262 yards) a couple of strokes tougher than the back nine.

The front nine starts with a long, 460-yard par four.

The second hole will be played from the back tee, becoming a 539-yard, par-five instead of the 404-yard par four used in some golf leagues.

The excellent 18-hole layout has one particularly outstanding stretch of tough holes: the 560-yard fourth, the 230-yard fifth, the 420-yard sixth and the 190-yard

ONE OF THE CHAMPIONSHIP FLIGHT players in the Antioch Open, Rich Higgins, hits a wedge shot to the picturesque 18th green at Spring Valley Country Club.

seventh. The fourth, fifth and six holes offer water hazards and there also is water behind the seventh green.

Fences to the left of the first, second, third, fourth, eighth and ninth holes are boundary lines. The penalty for an out-of-bounds shot or a lost ball is stroke and distance, not merely one stroke as some golfers play it.

SPRING VALLEY'S BACK NINE includes one of the best golf holes in the area, the 435-yard 15th. It is a long, tight par-four that doglegs to the right. Trees flank the fairway on both sides.

Winter rules will be allowed in fairways or rough, but players can move the ball with their clubheads only six inches, and no closer to the hole.

Spring Valley's owner, John Wagner, said spectators will be allowed to follow their favorites around the course.

Higgins and about 60 other players are practicing for the second annual Antioch News' tournament which opens Sunday with the first 18 holes.

## U.S. Open golfer enters here

A "last-minute" entrant in the championship class of the Antioch Open Tuesday morning was Chris Marszalek, who played in the U.S. Open tournament this year.

Marszalek, 23, is an unattached pro from Arlington Heights who now lives on Lake St. in Antioch.

He qualified for the U.S. Open at Plum Tree in

Harvard, Ill., then shot rounds of 73 and 78 in the national championship meet, missing the 36-hole cut by only four strokes.

THE FIFTH HOLE at Spring Valley Country Club is a frightening experience for many of the golfers who play

there. It is "merely" a 230-yard drive over water. All in all, though, Spring Valley is an interesting and pleasant

test of golf. The Antioch Open begins there at 11 a.m. Sunday.

## Play Dundee here Saturday

Antioch High's football team opens the 1977 season at home Saturday and there is one thing Sequoit fans can be sure of ... "we're going to be exciting," said Roy Nelson, head coach, and his varsity assistants, Ted DeRousse and Tom Baba.

"The fans will see the ball," DeRousse elaborated. "We're going to throw more and run more options."

Saturday's 2 p.m. game will be against a worthy opponent, Dundee's Cardinals. (They don't spell very well over in Dundee, but they're big and they play tough football.)

**DUNDEE BEAT ANTIOCH 12-6** in last year's opener and went on to win the Southern Division championship in the North Suburban Conference.

Antioch plays in the league's Northern Division so the opener won't count in the standings. However, the Sequoits are anxious to get revenge for that 12-6

heartbreaker of a year ago. That game could have gone either way ... the score was 6-6 until Dundee won it with a surprising 74-yard punt return in the final quarter.

**THIS IS A SEASON** Antioch has waited for, because this year's seniors are the same talented lads who had an 8-0-1 record as sophomores in 1975.

Antioch's varsity had a fine 7-2 record that year, but using a lot of juniors finished at 3-6 last season.

The Sequoits staged an intrasquad scrimmage last Saturday and the coaches said they "looked very good at the skill positions - the receivers and the backs."

"We're young on defense and right now that's our biggest question mark," Coach Nelson said.

**THE TEAM'S STRONG POINTS** include the fact that quarterback Brian Andrews, running backs Kenn Rosenbrock and Tom Huebner, tight end Tim Huebner and flanker Jeff Mulder were starters as juniors last year.

Andrews is backed up by Tom Dixon, whom DeRousse calls "the best No. 2 quarterback I've seen in my 10 years here."

"Our backfield depth is great," DeRousse said, "but right now our line depth is questionable."

Nelson is starting his 30th year of coaching in Antioch and his 16th year as head coach. DeRousse is beginning his 10th year as an assistant football coach.

**THE NORTHERN DIVISION** of the conference will send its champion into the state playoffs. The Antioch coaches feel Warren and Stevenson are the favorites in the division and, of course, "Grant of Fox Lake is always tough against us."

"Hopefully, we'll be a contender," Nelson said.

## Prepare summer homes for winter

Vacation homes are a relaxing hideaway, but they also are a responsibility, especially between seasons. If you spend a few hours in the fall preparing your house for the winter, you will save both time and expense when it is reopened in the spring.

Here are some helpful reminders to put on your winterizing checklist:

- Broken water pipes are no way to begin a summer season; remember to turn off the main waterline and drain pipes to prevent them from freezing during the winter.

- Strip the linens off all beds. If you leave the beds made-up, the sheets may become damp and musty and attract unwanted, pesky insects.

- Phone the utility company to turn off service for the winter months; discontinuing gas and electric service is not only economical, but an important safety precaution, as well.

Also, check with the phone company to suspend service until further notice. This will

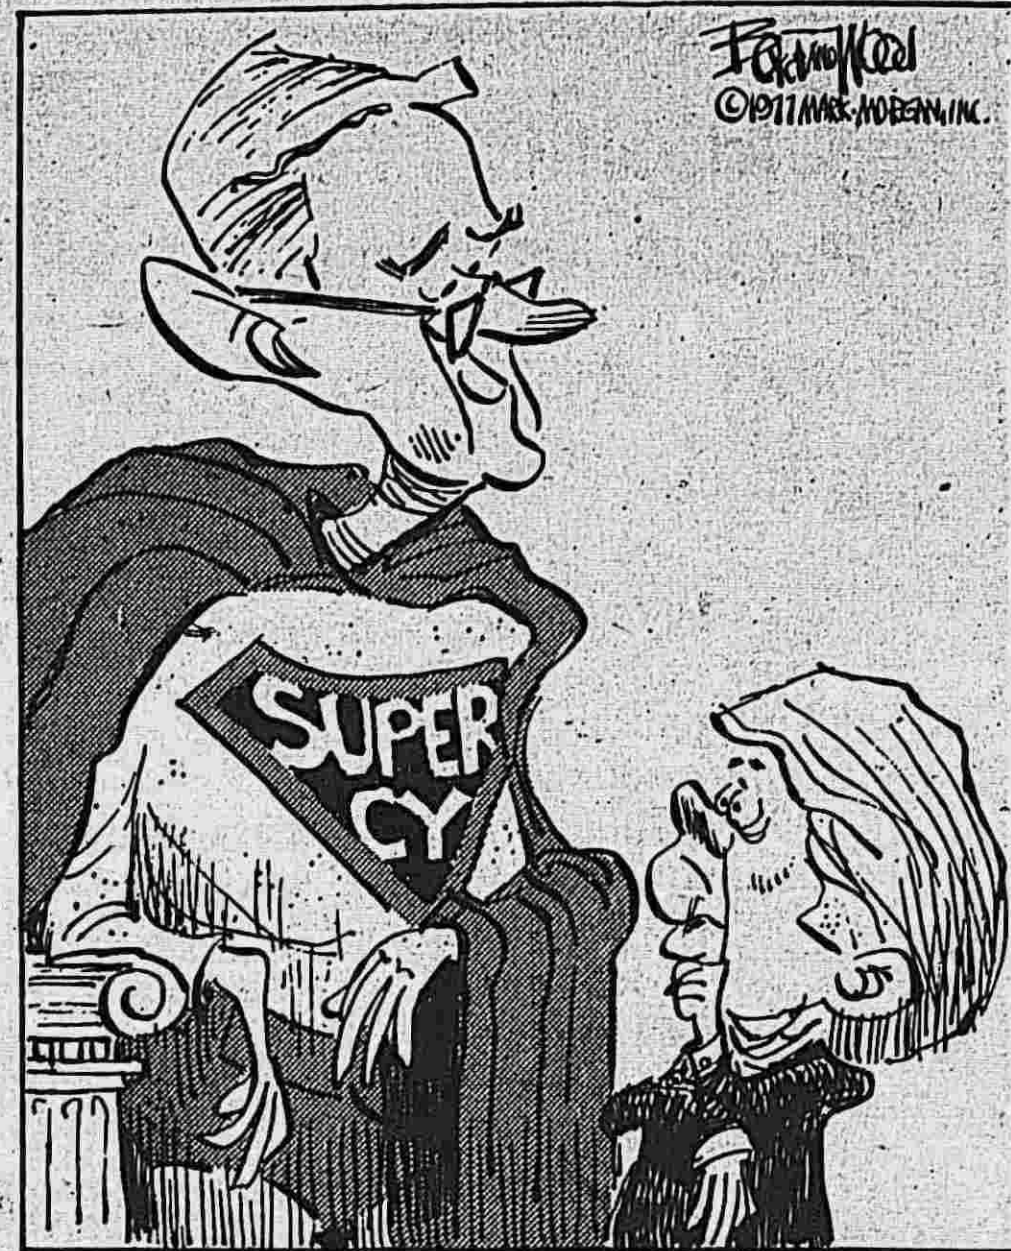

lower your monthly bill and avoid a re-installation charge next season.

Inform the post office to stop all delivery and to forward mail to your winter address.

- A thorough cleaning of all walls, floors, and other washable surfaces to remove spills and splatters left-over from summer fun will make reopening of the house and spring cleaning less hectic. To make the fall clean-up task quick and easy, use Fantastik® spray cleaner in every room. Just spray soiled areas with the spray cleaner and wipe with a clean cloth or paper towels.

- Cover large pieces of furniture—couches, chairs, tables, lamps—with old sheets to prevent them from fading and gathering dust which will accumulate over the winter months.

- Make sure all windows and doors are securely locked. Leave a key with a trusted neighbor in case of an emergency and also so they can make periodic checks.

## Speedway plans more racing

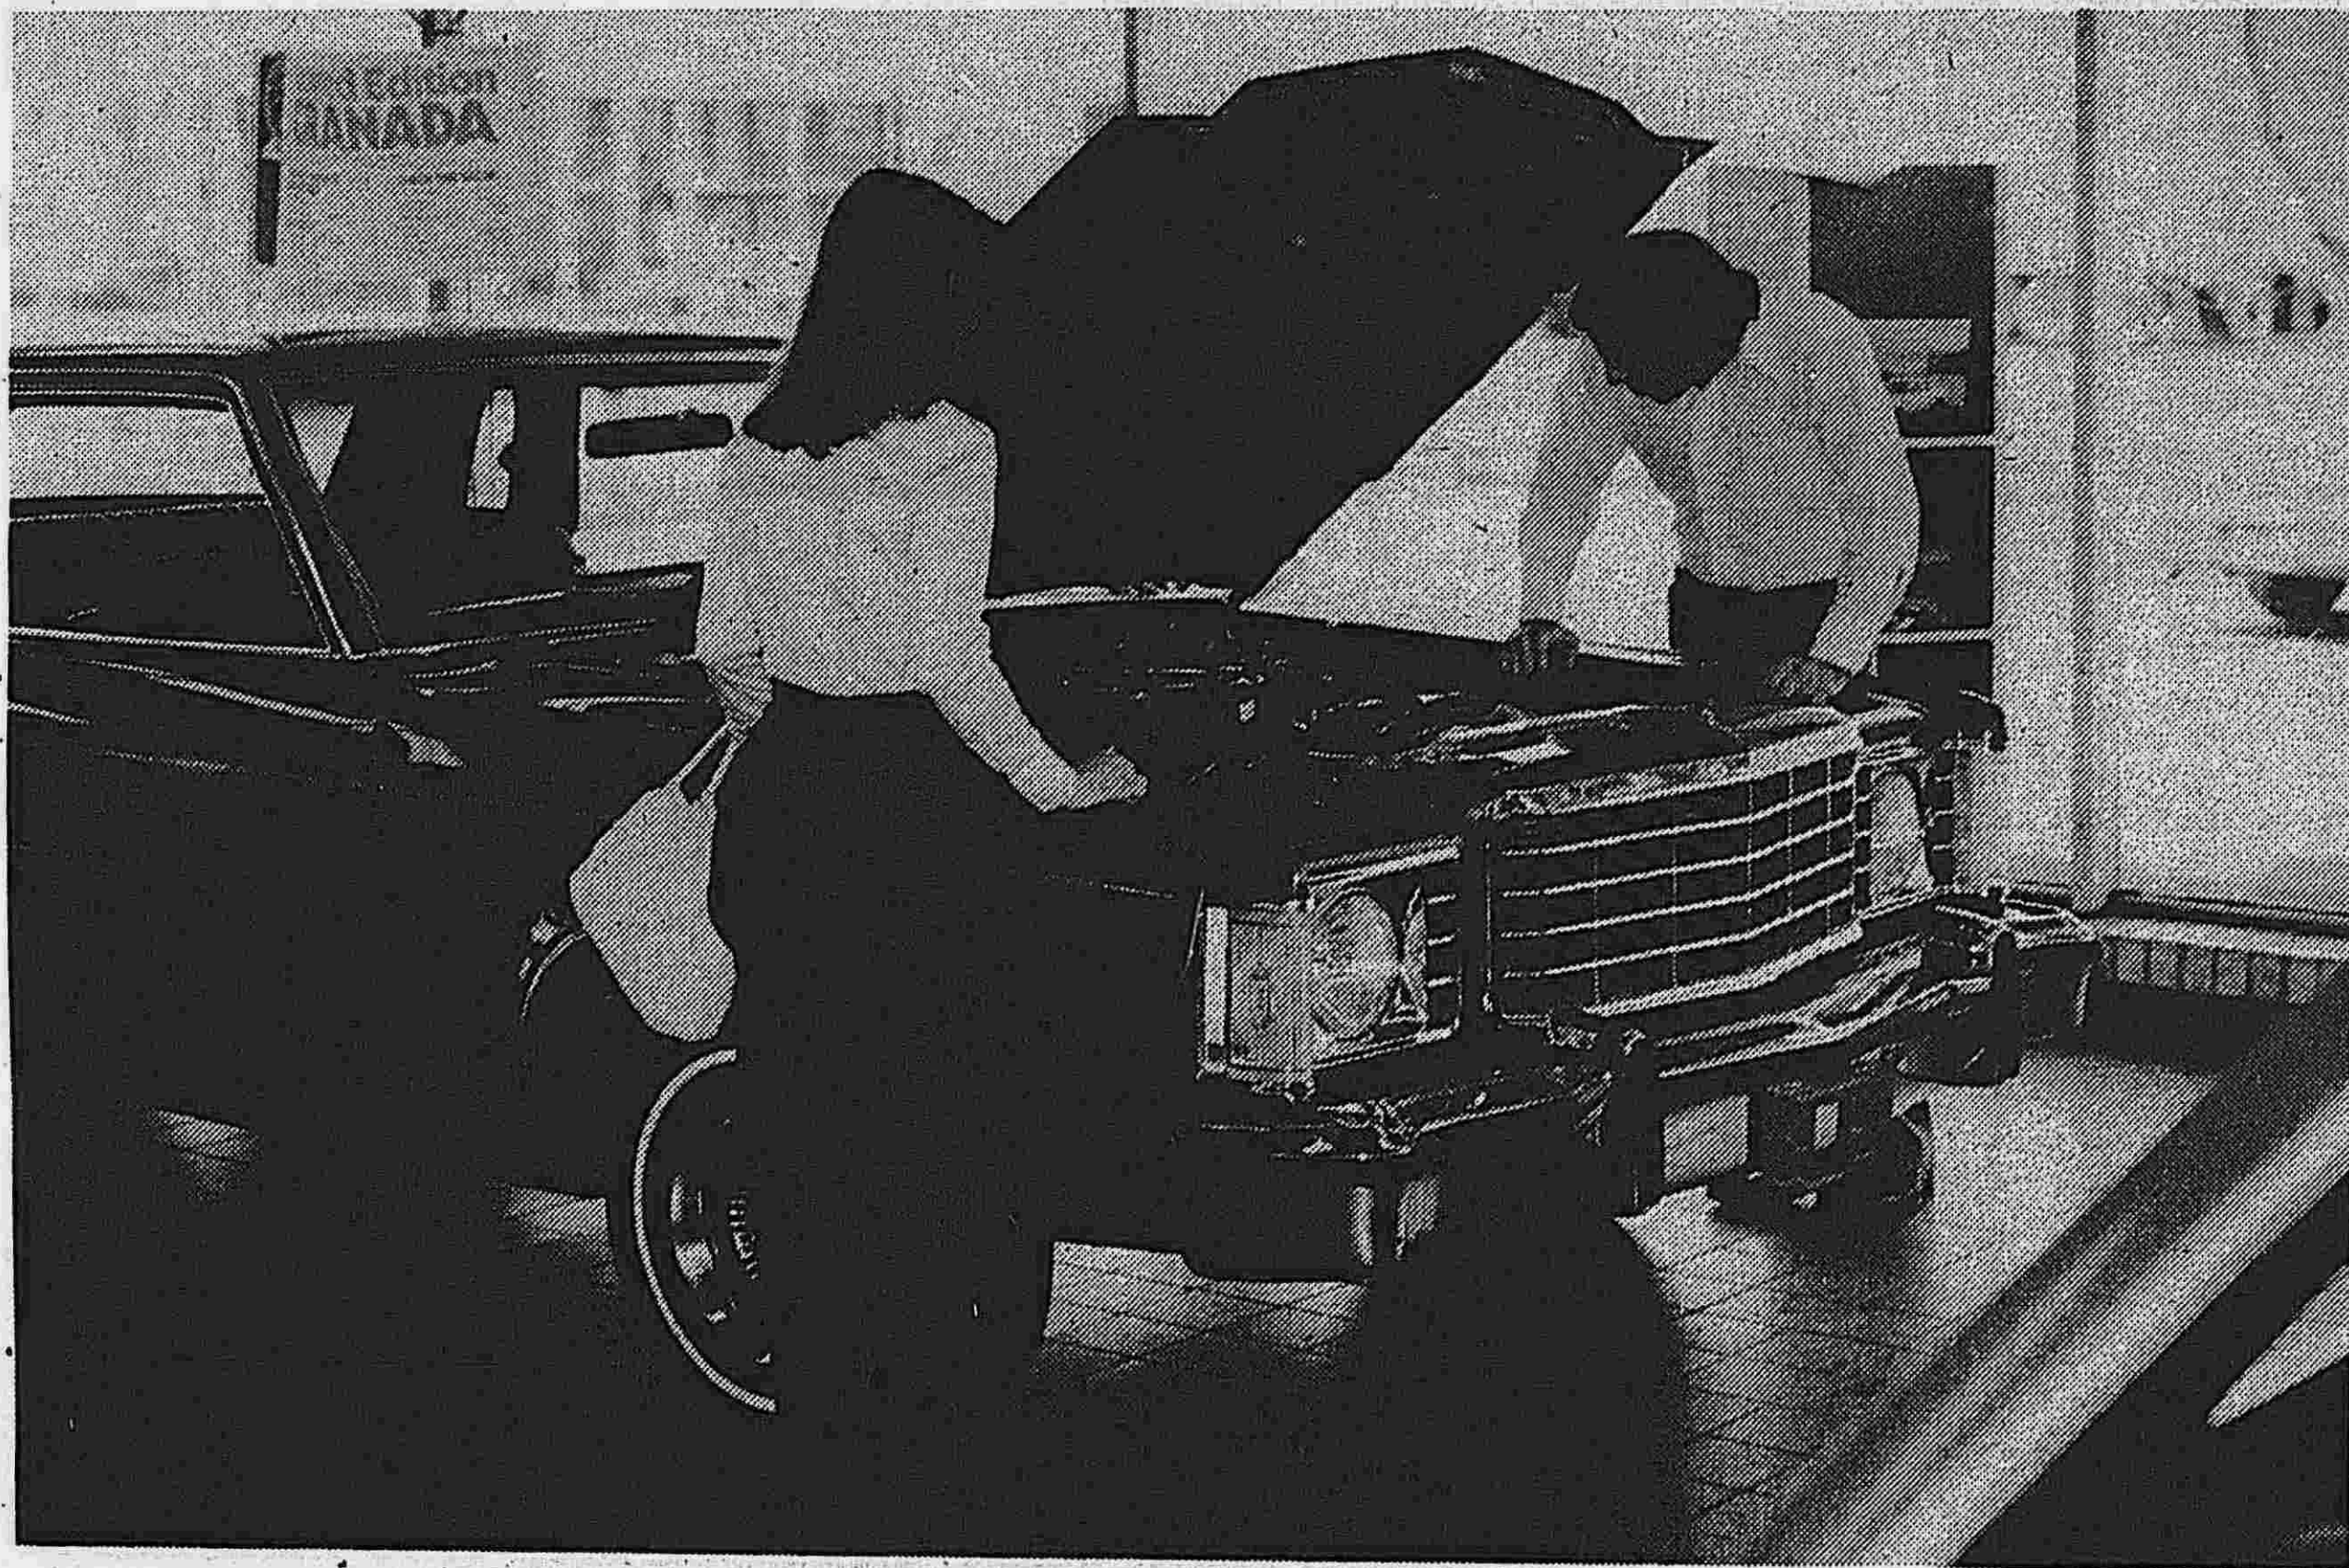

Saturday night racing will continue at Waukegan Speedway for a few more weeks, Michael H. Babicz, publicity director for the track, said Tuesday.

Late model sportsman and hobby stock cars will be driven in competition.

Ted Musgrave was the big winner at the Speedway Monday in the Jack Donelson, Old Milwaukee Twin 50's.

The Wisconsin driver won both ends of the racing.

Tom Jones won the overall championship for the season by 13 points over fast finishing Dave Evans.
